Business Account - Integration Guide

Our Business Account is **quick** and **easy** to integrate into your website.

We will outline two of the best methods, using examples from real clients' sites. Either method should only take 15 minutes for your web developer to implement.

Method 1 - A modal window/popup.

The user clicks on a link on clients' site, which in turn triggers a popup window over a semiopaque background.

A customer can upload their artwork without leaving the clients' website.

Method 2 - A frame / dedicated domain.

The user clicks a link on the clients' site. They are taken to a dedicated domain they have purchased, and simply added their Business Account within a HTML frame.
